

## 7" & 9" Multi Camera Monitoring

**OPERATING INSTRUCTIONS**  
**AM-3100 / AM-3109**

Thank you for purchasing the Farmscan AG 3100/3109 multi camera monitor kit.

Before connecting, operating or adjusting this product, please read the following instructions.

1. Do not attempt to repair by yourself. If any problems occur, please immediately turn the unit off and contact Farmscan AG or your local dealer.
2. Detachment or reassembling without professional may result to damage to the unit.
3. Do not expose to very humid air, extreme dust, fumes or excessive sunlight.
4. Do not use thinners, acetone or other chemical cleaner. Please use a soft cloth for cleaning only.
5. Storage temperature: -25~60°C
6. Operating temperature: -20~50°C
7. Prevent the monitor from falling or being struck.

**For your safety, please do not operate the monitor when you are driving.**

Dead pixels : There maybe some green/blank dots that appear in the screen, it's a common phenomenon in active matrix display technology, but not a defect or fault with the unit.
